Product Description

The New Choice for Windbreaker and Jacket Fabric

Usage:

Cotton Touch Twill Fabric is a cutting-edge textile crafted from innovative cotton-like polyester fibers such as T400 and T800. With its twill weave structure, this fabric combines the high strength and resilience of polyester with the soft and comfortable feel of cotton. It offers a wide range of functionalities through the use of various additives and finishing processes, including water repellency and stain resistance. Cotton Touch Twill Fabric provides a cost-effective option for creating windbreakers and jackets with exceptional performance and comfort.

Main Advantages:

- 1. Innovative Polyester Fibers:** Cotton Touch Twill Fabric utilizes advanced cotton-like polyester fibers like T400 and T800. These fibers combine the best qualities of polyester, such as high strength and shape retention, with a soft and natural feel similar to cotton. This innovative combination results in a fabric that offers both performance and comfort.
- 2. Soft and Comfortable Touch:** The cotton-like feel of Cotton Touch Twill Fabric ensures a gentle and pleasant touch against the skin. This characteristic sets it apart from traditional polyester fabrics, making it an ideal choice for creating garments that prioritize comfort and wearability.
- 3. Versatile Functionalities:** Cotton Touch Twill Fabric can be enhanced with various functional additives and finishing processes. These options include water repellency and stain resistance, providing added protection and durability to the garments made from this fabric. Embrace the advantages of performance-enhancing features without compromising on style.
- 4. Cost-Effective Solution:** Cotton Touch Twill Fabric offers an excellent balance of performance and cost-effectiveness. It provides the look and feel of high-quality cotton while retaining the durability and resilience of polyester. This makes it a smart choice for windbreaker and jacket fabrics that offer exceptional value for money.
